

Your child's elementary report card

A family guide for kindergarten through grade 5

Use ProgressBook to view your child's report card. This guide explains how to access it, understand the ratings and find help when you need it.

1 Access your child's report card

1. Visit parentaccess.noacsc.org on a phone or computer.
2. Select **Tiffin City Schools**, then **Sign In** with your parent account.
3. Select your child, then choose **Report Card** in the menu.
4. Select **View Paper Report Card** to open the full report. You can save or print it.

Need help? Use **Forgot your user name or password?** on the sign-in page to recover an existing account. For a new account, a registration key or any other access problem, contact your school secretary.

2 Read the results

The updated report card uses clearer descriptions of skills aligned with Ohio's Learning Standards. The 1-4 ratings show progress toward end-of-year grade-level expectations. **A 3 is the target.**

Rating	What it means
4	Demonstrates deep understanding of grade level standards
3	Consistently meets grade level standards
2	Progressing toward grade level standards
1	Needs significant support to meet grade level standards

Blank spaces indicate that an area was not assessed during that quarter.

I (Incomplete) indicates that there is not enough evidence of learning yet.

In grades 4 and 5, English language arts, math, science and social studies also receive overall A-F grades.

Review teacher comments alongside the ratings, and ask the teacher about any unfamiliar code. **PROUD behaviors** are reported separately from academic skills: Positive, Respectful, Own It, Understanding and Dependable.

Celebrate skills your child has learned, then choose a next step together. For ratings of 1 or 2, ask the teacher: **What progress are you seeing, and what can we practice at home?** Ask how progress compares with expectations at this point in the school year.

Access questions: Your school secretary. **Learning or grading questions:** Your child's teacher.
